Equilibrium

Ingredients Listing

Aura-Soma is a unique, self-selective, soul development colour-system. Equilibrium's vibrant colours support you towards well-being and self-awareness. All information about yourself is stored in the depths of your being. This enables you to intuitively pick the Equilibrium bottles with the colours that mirror your soul because….

"You are the colours you choose and these reflect your beings needs"

By feeding back the appropriate colours and energies, Equilibrium can restore, re-balance, re-energise and revitalise your delicate auric web, your body, mind and spirit. Equilibrium contains ingredients that are emollient, restorative and help protect the skin against the elements. These products will soothe and moisturise the skin, to keep it soft and smooth.
It is always best to have a consultation with a trained Aura-Soma practitioner. Alternatively you may wish to just select your favourite bottle and use it in the following way:

Suggestion for use:
To release Equilibrium's energies, shake the bottle vigorously with your left hand until the two liquid fractions mix together. Pour some of the liquid into your right palm and rub it on your skin in a complete band around the body at the level of the Chakra(s) to which the colour(s) within the bottle relate. Apply morning and night.

How to use this leaflet:
The full ingredients list divided into the upper and lower levels of each bottle. The top level is the oil fraction and the lower level is the aqueous fraction.

Useful cautions: Avoid contact with the eyes. Not to be taken internally. Equilibrium is just as effective on children but should be used with adult supervision. Try to make sure that nobody else handles your bottle. Reds can be stimulating so if you have difficulty sleeping avoid use before bedtime. Equilibrium contains colours that might stain your skin and clothes, but they should come off when washed. To protect the intensity do not expose to direct sunlight or other sources with UV fraction. All these products contain the energies and fragrances of Aura-Soma .

This ingredients listing will be effective from September 2004
